

## **Overshoot Procedure**

(Effective 11/7/09)

The club has been informed by our neighbor to the East that shot has fallen on some people that were walking along the road to the quarry. As a result of a meeting with the owners of the property the following has been agreed. All members are asked to please follow this agreement. It is imperative that we have a good working relationship with our neighbors.

1. Shooters will immediately cease fire upon seeing a vehicle or person(s) along the quarry road
2. RSC will post overshoot and no trespassing signs into and along the road leading to the quarry. A sign will be posted requiring that horns be sounded prior to driving onto the quarry road. Shooters will cease fire upon hearing the horn(s) and/or seeing the vehicles/persons.
3. Quarry personnel will notify anyone on the range when they intend to “walk” their property or be in a possible area of danger.
